Education

2021–2025 **Ph.D.**, Public Health Sciences, Korea University
2018–2020 **M.A.**, Development Policy, KDI School of Public Policy and Management
2010–2017 **B.A.**, International Relations, Yonsei University

Dissertation: *Discrimination and Well-Being Across Generations: A Longitudinal Study of Immigrant Women and Multicultural Adolescents in South Korea*; directed by Jinho Kim

Experience

2025– **Postdoctoral researcher**, Department of Public Administration, Ewha Womans University

Research Interests

I am a researcher grounded in a medical sociological perspective, with a focus on the social and psychological determinants of well-being among immigrants and youth across generations in South Korea. My work is driven by a commitment to methodological rigor, particularly through the application of longitudinal and panel data analysis grounded in econometric approaches. Broadly, my research aims to provide empirical evidence that informs public policies addressing structural inequalities and supports marginalized populations in Korea.
